Something new in the fishing tackle line is the new Shakespeare Wonderrod-Wonderrod outfit for those who like to fish but can't cast their baits - the reel is practically fool-proof and will not back-lash. They are available at most hardware stores in town - better take a look at them.

Frank Presley of Dallas, Texas, has been a guest of Bob Genin this week and has made a couple of fishing trips. Presley is a hard fisherman and he thinks it is much easier to catch a fish than catch a winner at the track.

The fishing in Audubon Park in New Orleans, was halted Tuesday until further notice because of the spawning season, George Douglas, park superintendent announced. A lot of fun is enjoyed by those who fall in the park. It's also a good thing to give the fish a break.

Hunters who own dogs are urged to have their dogs vaccinated against rabies as a safety measure. This same condition is prevalent in Hancock County. Fox are one of the largest carriers of this dreaded disease.

Beavers are being trapped in Wayne, Clarke and Leake Counties by Warden E. M. Byrd of Meridian. The Commission started trapping beavers in those counties after receiving several complaints from landowners whose farms were being damaged by the beavers. The beavers will be released in other sections of the state where they are wanted and needed.

Eight rabid fox have been killed in Alabama, according to a Montgomery newspaper. In recent weeks, it has been proven that rabies among the fox everywhere

The White team was composed of Russell and Cuevas at ends; Fazio and Hille at tackle; Moonney and Losa at guards; and Matrang and Scaffidi at center. At quarterback was Kenny Artigues; at left half, Cuevas; right half, McGonagill and fullback Santa Cruz. Captains were Hille and Santa Cruz.

The Rockchaws have 16 returning lettermen from last year's team. Birch Wilbert, Louis Ladner, Corky Whitmann and Billy Rhodes were four lettermen on the basketball team and absent from spring training.

Coach Farley Day said "We have a heavy and experienced line from tackle to tackle, and four ends back from last year's team."

He also added that the backfield is a little light now but most of the boys should develop by next fall.

Stanislaus started the spring training session with 66 boys and ended with 52.

County Agent Lem Edmondson of Alabama, said 14 persons, who were either bitten or have come in contact with animals bitten by rabid foxes, are now under treatment.

COFFEE

"Yes, Virginia, there is a Santa Claus." If you live in the South, you read the familiar and well-loved little story as it is reprinted every Christmas morning in New Orleans' newspapers in the ads of the Luzianne Coffee Company.

This is done in memory of the late Mr. Wm. Wm. B. Reilly, president of the company for many years. Mr. Reilly was a strict churchman, a level headed business man and he had a soft spot in his heart for this particular Christmas story and started the original republication.

Recently the officers of the company held a special meeting. They are already paying ten cents a pound extra for every pound of coffee they buy but this is the important decision made, as long as it lasts, every pound of coffee bought before the price went up, will be sold to their many customers at the old price. Not one penny extra.

Today, in bright, cheerful kitchens in this part of the country, many a housewife unpacking the groceries on the kitchen table can well say to the little girl who watches television and knows about coffee prices and asks lots questions:

"Yes, Virginia, (or Betty or Sally) there is a Santa Claus. For a little while longer, we can still buy Luzianne coffee at the old price."—Advt.

The City's Needs

Seventy per cent of the gasoline taxes in Hancock County are collected in Bay St. Louis. Yet zero percent of these taxes go toward maintaining Bay St. Louis streets.

Does that sound fair? It is true that a large portion of government is financed by the county. But who maintains the Bay St. Louis streets? The city. Who maintains the fire department? The city. Who collects the garbage? The city.

The city could slap on extra taxes to maintain its streets. But that's the wrong way. People are taxed to death already. The right way is to collect the street repair money from the source that uses the streets.

That's the automobile - and the money should come from gasoline taxes.

There's a fight before the state legislature now to give the cities of Mississippi one cent of seven ALREADY collected for gasoline taxes. This is not a new tax. It merely would be a new division of the old tax.

Think how much you use the streets of Bay St. Louis. Should your gasoline taxes pay to maintain them?

The only answer can be "yes."

County-wide Baseball

There's a movement afoot to sponsor a county-wide boy's baseball league this summer. This is, indeed, a noble move.

Father Hugh Taylor conducted a splendid program for Bay St. Louis boys in recent summers. Now this program can be extended throughout the county.

It will take money and work. And, actually, the work will be harder to find. Each team will require as sponsor a man who will devote his spare hours to helping boys enjoy the national pastime. These men surely can be found.

Let's Whoop It Up

Here comes Mardi Gras Day, and are we prepared? Are the favors ready? Are the masks bought? Are the trinkets in stock?

If not, a lot of folks will miss the most unique fun in the world.

The Real Spirit

Last week the new Hancock County Blood Bank sent out a call for blood. Donors were told that the case was NOT an emergency. Yet within 15 minutes the first donor was on hand. And within 45 minutes the transfusion was ready.

This, mind you, when there was no hurry. You can imagine the effectiveness of the program if there was a hurry.

Do you need more evidence of the worthiness of this project?

YOU ARE THE DETECTIVE

You and your friend, police sergeant Joe Roberts, arrive late on a dark night in front of the deserted factory building, and as you get out of Roberts' car, a man steps out of a side door of the building and rushes over to you.

"My partner... he's dead!"

You and sergeant Roberts accompany the man, Stan Morley, into the machine shop of the factory where, near one of the power lathes, you find the body of Ted Snyder, a bullet hole in the center of his forehead. While sergeant Roberts talks with Morley, you wander about and suddenly, half-buried in a box of wood shavings, you find the murder weapon, a .38 revolver. After picking it up in your handkerchief to preserve fingerprints, wrapping it carefully, and pocketing it, you walk back to the two men and listen to Morley's story.

"Ted and I were in the electrical business. We were repairing some of the wiring here tonight. I was busy in one of the offices when I heard the shot. For a minute I didn't realize what it was, then I ran out into the shop and found Ted like this. I hurried back to the office right away and phoned you."

"Did you see anything else that might help us trace the killer?" Sergeant Roberts asks.

"Maybe I did," replies Morley.

"Tuberculosis in Harrison County" was the subject of a talk given by Dr. A. N. Morphy, director of Harrison County public health, at the monthly meeting of the Pass Christian Parent-Teachers Association.

Dr. Morphy said tuberculosis is Harrison County's number one health problem. The Chest X-Ray was stressed as a means of helping prevent and cure this disease. There is no longer a mobile unit coming to Pass Christian but Dr. Morphy said that free X-Rays are given at the health clinic in Gulfport every Monday morning. He recommended that yearly X-Rays be made, especially of those people working with school children.

A short business session was held at which it was announced that Miss Adele Bieleberg won the door-prize and the attend-

ance banner went to the fourth grade.

Reimbursements were provided by the Home Economics Department with Mrs. Geraldine O'Rell and girls from the department as hostesses.

TO THE TAXPAYERS of the CITY of BAY ST. LOUIS

All of the Municipalities of the State of Mississippi, through the Municipal Association, are sponsoring a Bill in the Mississippi State Legislature, requesting the Legislature to pass an act whereby every municipality in the State of Mississippi would receive one-seventh (1/7th) of the net Gasoline Tax now being received only by the State and counties.

Presently the STATE receives \$20.4 Million plus \$10 Million from Federal Aid, or a total of \$30.4 Million.

The COUNTIES receive \$18.8 Million, Plus \$5.5 Million from Sales Tax, or a total of \$24.3 MILLION.

The MUNICIPALITIES receive NOTHING.

776,486 Citizens of Municipalities of the State pay a larger part of the cost of constructing and maintaining State highways and Country roads, and then carry the burden of the City Streets from their limited local taxation and special assessments.

A greater portion of the Gasoline Tax collected in Hancock County is paid by the citizens of Bay Saint Louis and Beat Five, BUT the City of Bay Saint Louis receives none of the Tax Paid by its citizens for the upkeep of its own streets.

However, Hancock County receives approximately \$300,000.00 per year from said gas tax of which approximately \$200,000.00 goes to the Seawall Bond and Interest Fund and Road Protection Fund and approximately \$100,000.00 is distributed equally to all Five Beats of the County as a whole.; The City of Bay Saint Louis receives none of this revenue from the County or the State for the upkeep of its streets, and yet, the citizens of Bay Saint Louis pay the majority of this tax.

Should the proposed Bill pass through the State Legislature, Bay Saint Louis would receive approximately \$25,000.00 per year for the repair of its streets; \$12,500.00 of the \$25,000.00 to be paid by the State of Mississippi, and \$12,500.00 from Hancock County as a whole.

The Counties have received the Lion's Share of tax money and the cities have received nothing except the Ad Valorem tax, which the property holders pay. This is certainly an injustice to the citizens of every municipality.

In our County, the tax payers of Beat Five, which includes Waveland and Bay Saint Louis, pay approximately seventy percent (70 per cent) of the taxes of the entire County which is another injustice.

The City of Bay Saint Louis, for the past six

years, has been reducing taxes in spite of the cost of living. It might further be noted that the Legislature has given all cities along the Gulf Coast the right to call an election for a one-half percent Sales Tax, and every city along the Gulf Coast has passed the sales tax measure to the operation of its government - BUT the present administration has thus far refused to call an election for the City of Bay Saint Louis to operate its government without a sales tax on its citizens.

If the Bill now pending in the Legislature is passed, the City of Bay St. Louis would still have to ask for a Sales Tax, but could greatly improve its streets without any bond issues or sales tax.

All of the Members of the Legislature from the Gulf Coast - EXCEPT the representative from Hancock County (Walter James Phillips) have signed and pledged support to the Bill in the Legislature. Our Senator, Quitman Lott, has co-authored the Municipality Bill and pledged his support.

The members of the Board of Mayor and Commission Council of the City of Bay Saint Louis, other citizens of your city, have urged its passage in the Legislature, WALTER JAMES PHILLIPS, to co-author and support this Bill, though he ADMITTED that it is a REASONABLE BILL. He has not indicated that he will support the measure.

The members of the City Council disagree with Johnson Shaw, President of the Board of Supervisors, and Mr. Shaw stated that he favors the Bill since it took some of the pressure from the County.

However, Mr. R. G. Hubbard, member of the Board of Supervisors from Beat Five of Hancock County (from whence most of the Gasoline Tax Ad Valorem Tax is collected) has urged Mr. Phillips to support this bill.

When Mr. Phillips ran for representative of Hancock County, he pledged support of this County, and he has not gone back on his promise to the people.

As Tax Payers, and as citizens of Bay Saint Louis, we urge that you press upon your representative that this is NOT a PERSONAL matter, but a PUBLIC Benefit which every citizen will enjoy.

MEMBERS OF THE BOARD OF MAYOR AND COMMISSION COUNCIL OF THE CITY OF BAY SAINT LOUIS

JOHN A. SCAFIDE, Mayor

J. CYRIL GLOVER,

Commissioner of Public Utilities

SYLVAN P. LADNER, JR.

Commissioner of Finance.

P. S. - I, R. G. Hubbard, member of the Board of Supervisors of Beat Five, Hancock County, heartily favor the proposed Bill, and feel that it would be an injustice to deny the Cities of Bay St. Louis and Waveland the Financial aid that each municipality would benefit, and have urged your County Representative and State Senator to co-author and support the Bill.

COASTING

By ANNE ORLEANS

The Leonard Kings, even on their too brief week ends, are working steadily on their landscaping plans. Among the many things working out nicely is the

well-stocked fish pond with the island in the center which is planted with sasunagas. There are also several hedges of these lovely flowering shrubs. One of their prettiest planned color combinations was a planting of one hundred Wedgewood blue iris bulbs and an even greater number of golden yellow King Alfred daffodils. What happened to this heavenly color combination? The best laid plans of Kings and men did go astray. Stray cows wandered in and ate every single one of the iris bulbs so the golden King Alfreds are blooming without their Wedgewood blue background.

Speaking of daffodils, this is what happened to the Linfields. Several weeks ago, their daffodils began to bloom and they picked the few that were open and looked forward to the many that would be open the following week. When they went out to the yard to get their daffodils there was not one daffodil. Some one else had picked them. The sad part was that Mrs. Linfield's mother is an invalid and they had planned to bring the daffodils to her when they returned to New Orleans.

If you are a boy, there is nothing you can do about the week with school every day. Come the weekend that is another matter. If you have a horse that is your very own horse because you saved up the money to buy it with your mother fixes you a nice lunch on Saturdays and Sundays and you leave around nine o'clock and come back when you feel like it. Rip Kennedy does it every week.

The B. R. Gregorays came over for a long week and this past week. Their guests were May and Alfred Antz who are always delighted to be on the Coast. They take long walks on the seawall and in the pine wood sections.

Dr. and Mrs. Irwin Boulet came over from Larose, La., to spend the weekend at their home on the Beach. Their guests were Mr. and Mrs. Harold Legeal. The Boulets had planned to remodel their home but the plans have been put away until next year. This year's trip to Europe will keep them busy for the next three or four months.

The Leheiteyners are cutting the most beautiful sweet peas, pink, orchid, blue and white. They have them all over the house and give many to their friends. They planted them last September and then put in a second planting in October so as to have a longer blooming season. The Leheiteyners are flying fans so when George had business in Greenville, Miss., last week, they flew up in the morning and flew back that night.

to a rather meekly add and manner of placing a bond issue on the tax-paying public!

In the first place, we wonder if such a bond issue is necessary. If the public will examine the file in the Clerk's office, it will be found that a great amount of the proposed expenditures is to repair the Board's last folly when the Record Vault was added to the Courthouse Building—where no contract was awarded, and no performance bond was given. A casual look on the inside of the building will show that the building has leaked throughout since it was supposed to have been finished, the windows were placed in the building broken, and they are still broken. A great amount of money was spent on this "repair program," and nobody seems to be responsible for the condition in which it was turned over to the County. There was no architect to make the plans and to see that they were carried out. A majority of the same Board that created this "folly" is still at the helm.

A look at the plans for the \$30,000.00 Bond Issue will likewise reveal that there is no architect who made the plans and specifications, and who would check on the successful contractor, the same as there was no architect to supervise the recent addition to the Courthouse. As usual, the Board had its Civil Engineer to make the plans and specifications, and we know not who will supervise. From a look at the past, we wonder who is protecting the taxpayer's interest.

We would likewise suggest that you, as taxpayers, check and find out the cost to repairs, painting and plastering of the Courthouse within the past ten years. You might be astonished!

We also wonder why the Board can allow over \$16,000.00 to be spent on Wood-preservation in a

short period of time and still not have enough funds to repair the Courthouse building without taxing the public with a Bond Issue.

We feel that the tax-payers and qualified electors should vote on a \$30,000.00 Bond Issue, and we have prepared a petition which will be circulated throughout the County, protesting such a Bond Issue, especially without giving the public the right to vote on it.

Mr. Editor, if you will be kind enough to allow us the use of this space in your paper, we will present some more facts from week to week that the public should know about this Bond Issue—and also where the majority of your tax money is being spent by the Board. In the interest of the taxpayers, we thank you for this
